THE LATINO VOTE IN 2024 AND BEYOND

This will be a major topic next fall before the election, but the analysis will continue well into next year.

IMMIGRATION AND THE “CRISIS” AT THE BORDER

I can discuss how immigration policy has changed over time, how the border evolved, and what makes the present situation both similar to and different than earlier moments of crisis.

LATINO HISTORY AND THE FUTURE OF THE UNITED STATES

Latinos have been a part of U.S. history for a very long time, even if their histories haven't been widely taught in high schools, and even if they've been misrepresented and misunderstood. I can give my take on Latino history, which argues that Latinos have always been colonizers and colonized, and we shouldn't only be seen as victims—of empire, racial discrimination, etc. (This is the topic most related to my book).
